MITCHEL XL

S3-Safetyshoe with sole plate for wet work

XL sizing, XL safety and XL comfort

The Mitchel XL has been created to offer the same standards of comfort and fit as the standard sized Mitchel but with a broader range of sizing options. It's virtually impenetrable making it an ideal choice of shoe for working with metal, whether you're welding, brazing or smelting. An integrated steel toe cap protects feet from falling pieces of metal and other objects. No compromise nitrile rubber soles resist corrosive substances and extreme temperatures. And for additional peace of mind protection, the Mitchel also comes with the option of flame proof laces.
