PLUVIUS

S3-Safetyshoe with sole plate for wet work

The first and last word in foot protection.

If you're working with combustible materials, you need to be made of strong stuff, and so do your boots. Dryshield membrane is one of the hardest wearing, most liquid repellent materials available. There are no second chances with corrosive chemicals, which is why the Pluvius boots are the first choice of many professionals in the Petro-Chemical industry. You'll find them on the feet of platform workers in the North Sea and walking around some of the bigger plants in Europe. Outstanding grip in every kind of weather and a good 'on foot fit' are amongst the many reasons why.
